Esports Assistant Coach

General Job Description

The Esports Assistant Coach is responsible for development of the Trumbull Esports Program.

Accountability Relationship

Reports to the Athletic Director.

Major Areas of Job Responsibility

- Assists in running team practices
- Provides specific and actionable feedback to players to assist in development in their respective esports titles.
- Monitoring and managing student interactions in esports-specific digital spaces.
- Assists on match days to communicate with other coaches and league officials regarding ongoing matches.
- Assists with management of social media platforms, including X, YouTube and Twitch.
- Planning of budgets and purchasing for the esports program.
- Participates in all practices and meets and assists the Head Coach with supervision of students.

Preferred Qualifications

- Experience in esports as a player and/or coach.
- Knowledge of content titles
- High interest and experience with gaming
- Experience supervising and working with students ages 12-18.

Compensation for this position is a stipend based on the Trumbull Education Association (TEA) contract - Category O Coaching Position.
